HEAVEN LEARNING  
ACADEMY

MOTIVATION DEDICATION SUCCESS

## Dear Parents and Carers,

May has been a productive month at Heaven Learning Academy, filled with engaging activities.

We started with environmental awareness, where students learned about sustainability and protecting our planet. Next, we focused on technology and innovation, encouraging students to explore new ideas and the impact of technology.

Our sports week saw students participating in various physical activities, promoting fitness and teamwork.

As the academic year ends, I extend my best wishes to our Year 13 students sitting their A-Level exams. Your hard work and dedication will surely lead to success.

Thank you for your ongoing support.

Warm regards,

**Mrs N. Naveed**  
**Headteacher**

# Parent & Student Insights

Dear Parents,

As part of our commitment to your child's holistic education, we offer the following tips to enrich their learning experience at home

## Ocean Conservation

Use educational videos and virtual tours of marine sanctuaries to teach your child about the importance of ocean ecosystems. Apps that track marine wildlife can also provide engaging and informative content

## Healthy Eating

Involve your child in cooking healthy recipes. Use nutrition-focused apps to plan meals together and learn about the benefits of different foods. Discuss the importance of balanced diets and healthy eating habits

## Artistic Development

Encourage your child to experiment with various forms of art using digital tools and online tutorials. Virtual museum tours and online art classes can also spark creativity and provide new artistic techniques

## Academic Excellence

Help your child prepare for exams with educational websites and apps that offer practice tests and study materials. Create a structured study schedule and provide a quiet, dedicated space for them to focus on their studies

## Physical Fitness

Promote regular physical activity through online fitness classes and family exercise sessions. Encourage participation in virtual sports competitions to build teamwork and physical skills

## Digital Literacy

Teach your child about online safety and the responsible use of technology. Use educational apps to explore the diverse applications of ICT in everyday life, fostering digital literacy and critical thinking skills

# Activities and Classes Corner

Our students participated in mindfulness and mental health activities designed to promote well-being and emotional resilience. These sessions included guided mindfulness exercises, discussions on mental health awareness, and practical strategies for managing stress
